

To Whom it may concern, I love my XM radio and use it about 6 hours a day on my job. XM has proved to be an invaluable tool and asset in my job as a delivery person. To now allow the N.A.B. to somehow reduce or lessen the quality and availabililty of my radio would be tragic indeed. Please reject the NAB's petition 04-160 and allow XM to continue to provide the wonderful service they give me and countless others. Thank You, Tobin Mock
